NIJ 0101.06

FOR FRONT AND REAR PROTECTION ONLY

Product Description

Design is key when under attack:

01

Double stitching with high strength threat to ensure adequate performance.

02

Good quality fabric to ensure maximum comfort.

03

Available in black and white.

04

For additional information on the ballistic capacity of the product see page 1#.

Legacy Safety & Security Armor

For body armor to be used with these products, we recommend Legacy Safety & Security armor, for which there are the following options: each has been tested by 2 NIJ accredited labs;

01

- Level III Plate
- 3lb Level III
- NIJ Compliant .06 Positive Buoyancy
- Stops 6 rounds of the 7.62 x 51FMJ
- Multiple sizes available

02

- Level IV Plate
- 5.2lb Level IV 12x10 (Introducing our 14x11 IV at only 6.8lbs)
- NIJ Compliant .06 Multi Hit (Bad guys don't just shoot once)
- Silicon Carbide
- Shooter Cut
- Multiple sizes available

03

- IIIA Dual Threat Armor Panel Lightweight (starting at 1.25lb)
- Lowest in class Back Face Deformation* (based on OBL reports)
- Multiple sizes

Mich Ballistic Helmet.

Product Description

- 01** Stops: 9mm, 45Cal 44Mag, 357Sig
- 02** Material: Aramid/PE
- 03** Available in black, Coyote and Green.
- 04** Sizes: Smallm Medium, Large

PASGT Balistic Helmet

Product Description

- 01** Stops: 9mm, 45Cal 44Mag, 357Sig
- 02** Material: Aramid/PE
- 03** Available in black, Coyote and Green.
- 04** Sizes: Smallm Medium, Large
